Object of the declaration
Name: FOAM AQUATIC EQUIPMENT
Model / Type: --
Description: Foam aquatic equipment is made from closed-cell crosslinked polyethylene (PE) with a uniform structure, designed to provide buoyancy and support during swimming lessons and training.
Lightweight, water-resistant and easy to use, they are suitable for pool exercises.
Available in different shapes and sizes, depending on the intended use of each product.

Declaration

VFA, as the manufacturer of the product, hereby declares, under its sole responsibility, that:

- A risk assessment has been carried out, identifying and evaluating the hazards associated with the intended use and reasonably foreseeable misuse of the product;
- The product has been subjected to the tests, inspections and verifications deemed appropriate, taking into account its characteristics, intended use and applicable safety requirements;
- The product has been designed, manufactured and controlled in accordance with the applicable safety principles and requirements;
- Procedures have been implemented to ensure the traceability of the product throughout its manufacturing process.

Furthermore, based on the information provided by suppliers, the results of the tests performed, and the current state of technical knowledge, VFA declares that the product:

- Does not contain substances classified as PBT (Persistent, Bioaccumulative and Toxic) or vPvB (Very Persistent and Very Bioaccumulative) at concentrations equal to or greater than 0.1% (w/w);
- Does not contain substances with endocrine-disrupting properties, as identified under Article 57(f) of the REACH Regulation, Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605, at concentrations equal to or greater than 0.1% (w/w);
- Based on the technical documentation provided by the suppliers and/or the laboratory test reports available, no heavy metals have been identified at concentrations exceeding the limits established by the applicable European legislation.
