INERTIA TREADMILL | G588 TVC

Running surface:

155 x 55cm

Motor:

3.5HP

Speed:

0.8 - 22km/h

Tilt 15%

Maximum user weight: 150kg

Dimensions: 200x93x148 cm

SPECIFICATIONS

- Pro-Tonic Smart Impact Absortion System. The elastomers allow a more fluid running, as it controls and absorbs the force of each step on the board, helping to maintain a constant speed during exercise.
- Progressive damping elastomers. Its advanced technology elastomers gently absorb the first impact of the feet and harden the damping as users bend and lift their feet from the platform. This ensures correct damping that prevents joint and muscle pain in the knees and feet.
- Aluminium lateral profiles with non-slip surfaces, which help to prevent slips and falls during exercise
- Painted ABS plastic case, with technology from the automotive industry.
- Band with tough, flexible, slip resistant, absorbent PVC surface. This surface is highly resistant to abrasion, mechanical strength and shock proof and it is also recyclable.
- Monitored heart rate: measured either by contact with the handlebar or via telemetry (Integrated POLAR compatible receiver).
- · Height adjustable feet, for the maximum stability.

- Easy Toolbar for quick, instant access built into the front handrail, this includes pulse rate contact sensors, one-finger speed and tilt buttons and emergency stop.
- Wheels for easy transport
- Heart Rate Constant program (HRC). Allows cardiovascular zones to be targetted during exercise. Automatically controls workout intensity to maintain effort at selected pulselimits.
- NO lubrication needed: Includes a revolutionary combination of belt and deck with a HST Phenolic wax unique in the market that provides a low maintenance system, and eliminates the need of lubrication for an estimated period of 6 months or 1 year (depending on the environmental conditions of the room and the frequency of use).
- Connection for mp3 and built-in speakers, which let users listen to their own music while exercising.
- Man / Woman Fitness Test. Allows to evaluate the shape and physical condition of the user.

- Smart Focus Monitor: capacitive 16"HD Touch Screen, it shows the evolution and training information (Speed, Time / Distance (km) Calories / Incline, Pulsation in watts, resistance, pulse, etc.), plus allows full connectivity to social networks, internet, television and applications thanks to the Fit Feel interface that provides the fastest touchscreen technology of the market.
- 28 Exercise Profiles: manual program, 8 predefined profiles, objective programs, Heart Rate Control program, physical test programs, etc.
- **Emergency Stop Button** at front Toolbar and automatic stop system MOB (string)
- Log In System: The Log In system for each user allows the customization of the display, the interaction between the user and trainers, the customization of the workouts and also to save all the information of the trainings.
- Accessories: USB charging port, Smartphones and iPods compatibility, CSAFE port, headphone jack.
- Entretainment Options: the best connectivity (Facebook, Youtuve, Netflix, etc.) and Virtual Active training options for outstanding workouts through the most wonderful landscapes. HD4K, TV, music, games.
- Training for Captation: Focused on specific population with Protocols (Gerkin, Cooper...) or medical approach (Heart Rate training).

- Training for Retention: internal channels in order to work with the user and giving advices and tips basing on cloud service. Moreover, the cloud also allows the user to save, compare, share and compete with their data/timing.
- Management for Retention: The management platform allows to extract data from the equipment for a better decision making. Information provided: use data, live data in real time, status reports. It's also possible to remotely update the system and have direct contact with the after sales team. This reduces the response time needed to solve any issue.
- Open System: Smart Focus can be integrated with any other managament software in the market (Vitale, TraininGym, Cirtuagym, etc.).
- Scalable: Due to the manufacturing process of the consoles, which has been based on modular building of software and hardware, all the new developments will fit to the same monitor.
- Data Property: the ownership of user data will belong solely and exclusively to the owner of the facility. BH Fitness will keep only the data for machine usage in order to improve the after sales service, while maximizing the efficiency of the equipment.
- Easy to Use: designed using all the user experience criteria for an intuitive display (lateral menus, double security clics, one access clic, capacitive touch technology, etc.
